PREFERRED DRUG LIST

Coordinated Care of Washington, Inc.

Apple Health Medicaid

Pharmacy Program

Coordinated Care of Washington, Inc. (Coordinated Care) in conjunction with the Washington State Health Care Authority, is committed to providing appropriate, high quality, and cost-effective drug therapy.

Coordinated Care covers most prescription medications and certain over-the-counter (OTC) medications in accordance with the Apple Health Preferred Drug List, which is subject to state requirements including generic substitution, controlled substance limitations, and coverage preference over brand or generic drugs. Some medications may require prior authorization (PA) or have limitations on age, dosage, or quantity.

Preferred Drug List

The Preferred Drug List (PDL) is a list of drugs or products that includes information regarding coverage status and any limitations. The Preferred drugs within a chosen therapeutic class are selected based on clinical evidence of safety, efficacy, and effectiveness. The drugs within a chosen therapeutic class are evaluated by the Drug Use Review Board, which makes recommendations to HCA regarding the selection of preferred drugs. Members can fill most of these drugs or products at retail pharmacies, others may only be covered when supplied by a specialty pharmacy. Drugs or products that need to be supplied by a specialty pharmacy will have a "SP" indicator on the PDL.

Specialty Pharmacy Program

Certain medications are only covered when supplied by Coordinated Care's specialty pharmacy. AcariaHealth is the preferred specialty pharmacy of Coordinated Care for most specialty drugs. Other specialty drugs may only be available at certain limited distribution pharmacies. Most specialty drugs, such as biopharmaceuticals and injectables, require a PA to be approved for payment by Coordinated Care.

AcariaHealth provides the following services:

- A dedicated, multilingual team available 24 hours a day, 7 days a week to meet the unique needs of each member
- Disease-specific product education and training
- Customized treatment programs and compliance monitoring
- Prior authorization support
- Timely delivery to the physician's office or the member's home, as requested

Centene Pharmacy Services

Coordinated Care works with Centene Pharmacy Services to administer the prior authorization (PA) process. Some drugs and products on the PDL require PA.

Dispensing Limits

Drugs or products may be dispensed up to a maximum of a 34-day supply for each new prescription or refill. A total of 80% of the days' supply must elapse before a prescription can be refilled.

Members may also be able to obtain a 90-day (3-month supply) of maintenance drugs from participating pharmacies. Maintenance drugs are used to treat long-term conditions or illnesses. Additional information about the Maintenance Drug Program can be found at www.coordinatedcarehealth.com/for-providers/pharmacy-program/

Appropriate Use and Safety Edits

The health and safety of our members is a priority of Coordinated Care. One of the ways we address member safety is through point-of-sale (POS) edits at the time a prescription is processed at the pharmacy. These edits are based on FDA recommendations and promote safe and effective medication utilization.

Additional information about what drugs are part of the Appropriate Use and Safety Edits can be found on Coordinated Care's website at www.coordinatedcarehealth.com/for-providers/pharmacy-program/

Second Opinion Program

The Washington Health Care Authority (HCA) requires that Managed Care Organizations (MCOs) participate in the Second Opinion Program. The HCA developed the second opinion program to improve prescribing practices in children 17 years of age and younger. In collaboration with The Pediatric Mental Health Advisory Group and the Drug Utilization Review Board, HCA has established pediatric mental health guidelines to identify children who may be at high risk due to off-label use of prescription medication, use of multiple medications, high medication dosage, or lack of coordination among multiple prescribing providers.

Members 17 years of age and younger who are prescribed drugs outside of the established pediatric mental health guidelines, will be referred to the HCA to initiate the process of a second opinion review with an HCA-designated mental health specialist from the Second Opinion Network. After the second opinion review has been completed, Coordinated Care will receive a copy of the second opinion from the HCA. The second opinion review will have recommendations issuing an approval or denial.

Prior Authorizations

If a medication is not listed on the PDL or there is a "PA" indicator next to a drug or product, a Prior Authorization (PA) is needed. The PA request should be submitted by the prescriber to Centene Pharmacy Services on the Medication Prior Authorization Form or via CoverMyMeds. The PA form can be faxed to Centene Pharmacy Services at 1-833-645-2734, which can be found on Coordinated Care's website at www.coordinatedcarehealth.com/for-providers/pharmacy-program/.

In addition, prescribers can conduct a telephonic PA by calling 855-757-6565 from 5am – 5pm PST Monday - Friday, for all non-specialty drug requests. Please visit www.coordinatedcarehealth.com/for-providers/pharmacy-program/ for more details.

Coordinated Care will cover the medication if it is determined that:

1. There is a medically necessary reason that the member needs the specific medication.
2. Depending on the medication, other preferred medications on the PDL have not worked.

All reviews are performed by a licensed clinical pharmacist. Once a PA is approved, Centene Pharmacy Services will notify the member and prescriber. If the clinical information provided does not meet the coverage criteria for the requested medication, Coordinated Care will notify the member and their prescriber and provide information regarding the appeal process.

Non-preferred Medications

Some medications that are listed on the PDL may require that other preferred medications be tried and failed first before the member can receive the requested medication. If additional information is needed showing that the preferred medications were tried and failed first, and it is not received, the request will be denied. The member and their prescriber will be notified and provided information regarding the appeal process.

Quantity Limits

There may be limits on how much of a medication a member can get at one time or over a certain time period. If there is a medically necessary reason that the member needs a larger amount, then the prescriber can submit a PA request for a larger quantity. If the PA is not approved, Coordinated Care will notify the member and their prescriber of the denial and provide information regarding the appeal process.

Age Limits

Some medications may have age limit restrictions. These are set in place for certain drugs based on FDA approved labeling and for safety concerns and quality standards of care.

30-Day Emergency Supply Policy

Up to a 30-day supply of a medication can be dispensed while a member is awaiting a PA if a licensed pharmacist has used his or her professional judgment in identifying that the member has an emergency medical condition for which lack of immediate access to pharmaceutical treatment would result in either placing the health of the individual or, with respect to a pregnant woman, the health of the woman or her unborn child, in

serious jeopardy, serious impairment to bodily functions, or serious dysfunction of any bodily organ or part. Pharmacies needing an emergency fill must call Centene Pharmacy Services at 1-866-716-5099.

Exclusions

The PDL does not cover all drugs and products. Some exclusions may include:

- Drugs or products that are not approved by the FDA
- Drugs or products from a manufacturer that does not have a federal rebate agreement
- Drugs prescribed for weight loss or weight gain
- Drugs prescribed for infertility, frigidity, or impotence
- Drugs prescribed for sexual or erectile dysfunction
- Drugs prescribed for cosmetic purposes or hair growth
- Nutritional supplements
- Drug Efficacy Study Implementation (DESI), Identical, Related, or Similar (IRS), or Less Than Effective (LTE) drugs
- Non-covered OTC drugs
- Drugs and drug-related supplies for multiple patient use
- Drugs prescribed for an indication that is not evidence-based
- Drugs prescribed for a non-medically accepted indication or dosing level

Newly Approved Products

New drugs that come out to the market are reviewed for safety and effectiveness. Access to these medications will be considered through the PA review process. If Coordinated Care does not approve the PA, Coordinated Care will notify the member and their prescriber of the denial and provide information regarding the appeal process.

Over-the-Counter Medications

The PDL covers a variety of Over-the-Counter (OTC) medications. For a list of covered OTC medications, please refer to the PDL. Members can get a prescription for a covered OTC medication from a licensed prescriber that meets all the legal requirements for a prescription.

Generic Drugs

In most cases, when generic drugs are available, the brand-name drug will not be covered without prior authorization from Coordinated Care. Generic drugs have the same active ingredient as brand-name drugs. If the member or their prescriber feels a brand-name drug is medically necessary, the prescriber can submit a PA request. Coordinated Care will cover the brand-name drug according to clinical guidelines if there is a medical reason that the member needs a particular brand name drug. If Coordinated Care does not approve the PA,

Coordinated Care will notify the member and their prescriber of the denial and provide information regarding the appeal process.

Drug Efficacy Study and Implementation Products

Drug Efficacy Study and Implementation (DESI) products and known related drug products are defined as less than effective by the Food and Drug Administration because there is a lack of substantial evidence of effectiveness for all labeling indications and because a compelling justification for their medical need has not been established. DESI products are not covered by Coordinated Care.

Filling a Prescription

Members can have prescriptions filled at any Coordinated Care network pharmacy. If a member decides to have a prescription filled at a network pharmacy, they can locate a network pharmacy near them by contacting a Coordinated Care Member Services Representative or utilizing the Find a Provider tool on Coordinated Care's website. At the pharmacy, members will need to provide the pharmacist with the prescription and their Coordinated Care ID card.

Copayments

Washington Apple Health members will not have copayments for drugs filled at a network pharmacy.
